

St. Lucia Electricity Services Ltd. Electricity Rates 2010

www.lucelec.com

BASIC ELECTRICITY RATES

Rates per electrical unit: per KW

Customer Type	Units	\$XCD
Domestic	from 1-180 units	0.658
	from 181 units upwards	0.708
Commercial	all units (low tension)	0.808
	bulk (high tension)	0.808
Industrial	all units (low tension)	0.808
	bulk (high tension)	0.808
Hotels	all units (low tension)	0.808
	bulk (high tension)	0.768
Street lighting	all units	0.458

MINIMUM MONTHLY CHARGES

Customer Type	Product Type	\$XCD
Domestic	low tension	5.00
Commercial	high tension (bulk)	30.00
	low tension	500.00
Industrial	high tension (bulk)	100.00
	low tension	500.00
Hotels	high tension (bulk)	100.00
	low tension	500.00
Reconnection Fee		22.00

FUEL SURCHARGE*

*The kilo watt rate is generated on the basis of the consumption of the entire island.

*The rate is dependent on the world fuel market. The fuel surcharge rate varies according to the world price of oil and is calculated as follows:

- fuel charge for the previous month / total units for the previous month

CARILEC Tariff Survey Among Member Electric Utilities – Mid-Year (June) 2010

Industrial Consumer using 10,000 kWh per month (note 2)	30kVA					582.57				
Industrial Consumer using 100,000 kWh per month (note 2)	275 kVA					5,343.21				
Fuel Surcharge - \$/kWh										
Maximum Demand (MW)						162.40				
Total Number of Consumers - as at June 2010						126,814				
Number of Employees (note 3)						963				

Note 2 (BL&P): Most Commercial and Industrial customers can reclaim VAT and as a result VAT is excluded from these figures.

Note 1 & 2 (CUC):customer charges above include meter rental fees, in the case of the 100 kWh customer, the fee of US\$6.14

equates to an additional US\$0.061/kWh. Note 1 & 2 (T&TEC):All TTEC prices exclude 15% VAT. Note 3 (BL&P & LUCELEC):

This includes 35 and 2 temporary employees for BL&P and LUCELEC respectively..
